

PMI® AUTHORIZED PMP® EXAM PREP WORKSHOP

Project Management Professional (PMP)®
Designed by project leaders, for project leaders.

The Global Gold Standard in Project Management Certification

With PMP certification, you not only show potential employers you have the experience and knowledge to drive successful projects – you showcase your ability to adapt to any project environment. In any industry. Anywhere around the world. PMP certification validates that you are among the best – highly skilled in:

PEOPLE

Recognizing you have the expertise to effectively lead and motivate a project team through all phases.

PROCESS

Demonstrating predictive, agile and hybrid approaches and the ability to determine the best model, based on the challenge at hand.

BUSINESS ENVIRONMENT

Highlighting the success of a project and its impact on overall strategic organizational goals.

Why Obtain a PMP® Credential?

Globally recognized and demanded, the PMP® certification demonstrates to employers, clients, and colleagues that you possess the latest project management knowledge, experience, and skills to successfully lead projects, no matter what that project is. Whether you work in technology, business, or any other sector, project leaders are in demand to help businesses discover and gain value and keep work moving in a complex, changing world. The PMP® certification recognizes your ability to lead and direct projects successfully. Year after year, the PMP® certification commands global recognition and a higher salary for certified individuals compared with non-certified individuals.

Workshop Description

The workshop enables candidates to develop professionally, increase their project management skills, apply a formalized and standards-based approach to project management, and seek career advancement by moving into a formal project manager job role, as well as to apply for the Project Management Institute, Inc. (PMI)® Project Management Professional (PMP)® certification.

This workshop provides training on the domain and tasks outlined in the Project Management Professional (PMP)® Exam Content Outline.

Target Audience

This workshop is designed for individuals who have on-the-job project management experience, who are not certified professionals, and who might or might not have received formal project management training. The workshop enables candidates to develop professionally, increase their project management skills, apply a formalized and standards-based approach to project leadership, and seek career advancement by moving into a formal project manager job role, as well as apply for the Project Management Professional (PMP)® certification. To ensure success in this workshop, you should have experience with basic project management concepts and have some working experience with project management.

Workshop Duration

5-day Workshop

35 Contact Hours

PMP® Certification Eligibility Requirements

Earning your PMP® Certification is a commitment, and that's why it is valuable. If you have real-world project management experience, you've finished the hardest part.

To be eligible for the PMP® certification, you must meet certain educational and professional experience requirements. All project management experience must have been accrued within the last eight consecutive years prior to your application submission.

Before you apply, make sure you meet one of the following sets of PMP® Certification requirements:

- Four year degree
- 36 months of experience leading projects within the past eight years
- 35 hours of project management education/training or CAPM® certification
- High School Diploma or Associates Degree
- 60 months of experience leading projects within the past eight years
- 35 hours of project management education/training or CAPM® certification
